PROFILE

Currently, I am studying at the Faculty of Informatics at the UPV/EHU. I am someone who is eager to explore the business world. I am passionate about video games and modern cinema. I enjoy giving my all to projects that interest me and spark my curiosity.

SKILLS

Experienced in teamwork and collaborative projects. Willing to assist and solve problems for team members. Meticulous and detail-oriented. I enjoy creating optimal and efficient code.

EDUCATIONAL BACKGROUND

University of the Basque Country (UPV/EHU)- *Ingeniería del software/Software Engineering*

2020 - 20XX

Currently pursuing the third year of my degree. Internationalization of the Bachelor's Degree in Computer Engineering.

Honors in Modular and Object-Oriented Programming.

Cambridge English Institute - *C1 (Advanced) Certificate.*

2020

Fluent in English. Several years of practice with the language in various contexts, including professional and personal settings.

INTERNSHIP EXPERIENCE

Zucchetti Spain - *I+D+i* - *Software Engineer (Full-Stack)*
2023 - 2023

In my current role, I have actively resolved issues and contributed to the success of a web project for the company using C# with the ASP.NET MVC framework. After the stable release of the initial version, I undertook the task of enhancing the front-end functionality.

Developed a Single-Page Application (SPA) partial without external dependencies, leveraging client-side rendering and routing to provide a seamless and efficient user interface. Utilized AJAX and jQuery.

TECHNOLOGIES

Java (3 años), Django(1 año), **JavaScript** (1 año), **C#.NET MVC** (1 año), **HTML5(2 años)** y CSS (2 anos), express.js, Python, MySQL, mongoDB, SQL.

Proficient in GitHub for version control and experienced with Scrum methodologies.
